

ON-PAGE SEO AUDIT AND OPTIMIZATION REPORT

Project Title:

On-Page SEO Audit and Optimization of Marketing With Prajyot

Website URL:

<https://marketingwithprajyot.blogspot.com>

Student Name:

Prajyot Marathe

Objective:

To analyze and improve the website's on-page SEO elements for better search engine visibility, user experience, and organic traffic.

Tools Used:

- Google Search Console
- Google Analytics 4
- Google Keyword Planner
- Ubersuggest
- SEO Friendly Checker
- Blogger Platform

Website Assessment

1. Site Title

Current Status: Good

Recommendation: Include target keywords like Digital Marketing, SEO, and MBA Marketing.

2. Meta Tags

Current Status: Needs Improvement

Recommendation: Add unique meta descriptions for every page.

3. Heading Tags

Current Status: Average

Recommendation:

Use one H1 tag per page and proper H2-H3 structure.

4. URL Optimization

Current Status: Good

Recommendation:

Use short and keyword-rich URLs.

5. Image Optimization

Current Status: Needs Improvement

Recommendation:

Add ALT text and compress images before uploading.

6. Favicon

Current Status: Available

Recommendation:

Maintain a consistent brand favicon.

7. Internal Linking

Current Status: Average

Recommendation:

Link related blog posts together.

8. External Linking

Current Status: Average

Recommendation:

Link to trusted sources like Google, HubSpot, and Search Engine Journal.

Keyword Research

Primary Keywords:

- Digital Marketing
- SEO
- Social Media Marketing
- Marketing Analytics
- MBA Marketing

Long Tail Keywords:

- Digital Marketing Career for MBA Students
- SEO Tips for Beginners
- Social Media Marketing Strategy
- Digital Marketing Skills 2026

Content Optimization Recommendations

- Add keywords naturally in titles and headings.
- Improve readability with shorter paragraphs.
- Add FAQs in blog posts.
- Add call-to-action sections.
- Update old content regularly.

Internal Linking Strategy

Home Page → Digital Marketing Articles

Digital Marketing Articles → SEO Articles

SEO Articles → Social Media Marketing Articles

Expected Results

- Improved Google rankings
- Better organic traffic
- Higher CTR
- Improved user experience
- Increased website authority

Conclusion

The website has a strong foundation and can achieve better rankings through improved meta tags, content optimization, image optimization, and internal linking strategies.
